### **Trillium Springs Counseling Center Expands into New Location**

ATLANTA, Georgia (June 1, 2010) – Trillium Springs Counseling Center has expanded into larger space within their existing office building at Governor’s Ridge on Powers Ferry Road in Atlanta.

“We have been fortunate to have a number of talented professional counselors join our Center over the past several months. The new, expanded space is designed to give our clients and therapists an environment conducive to a positive counseling experience,” said Trillium Springs Counseling founder and director Vilda S. Brannen, M.A., NCC, LPC.

The new space has a large reception and waiting area, five therapist offices, and a room that can accommodate up to 20 people in a group setting.

“Having nine therapists working directly with Trillium Springs Counseling and four others associated with the practice gave us the opportunity to expand into this new space. The combination of their talents, experience and professional relationships will give our clients a wider variety of options as they seek counseling,” Brannen concluded.

Among the specialties of the counselors at Trillium Springs Counseling are: management and treatment of bipolar disorder, individuals, couples, and family counseling dealing with issues of marital, depression, anxiety, eating disorders, sexual trauma, addiction, and spirituality among others.
